

VIDEO ASSIGNMENT 1**Due date:** 25.02.2025 23:00

Watch the documentary "[Revolution OS](#)" (2001), which explains the history of GNU, Linux, and the open-source movement (You can watch any version available on youtube like [that](#)). Based on the ideas given in the documentary, answer the following questions:

- What are the advantages and disadvantages of open-source software development based on the examples given in the documentary?
- What part of the documentary was the most interesting for you? Why?
- Can you identify areas in your own academic or personal projects where adopting open-source principles might be beneficial? Explain your reasoning.

There is no exact answer to the questions, we will evaluate your submission by considering your understanding of the main concepts. However, the submissions like "I liked everything", "Nothing interesting" without any explanation will not get any point.

Very Important Note: You need to use **your own** words. You **should not** directly take the sentences from the video script or your friend's submission or any other generation. We will check your submission for plagiarism. Make sure that, you rephrase all the sentences.

You are required to submit **at most 1-page pdf** file named as yourstudentnumber_ceng322_V1.pdf.
