

VIDEO ASSIGNMENT 3**Due date:** 04.06.2025 23:00

Watch the video given in the following link: <https://www.youtube.com/watch?v=UdNocRPQS3Y>

You don't need to understand all the details, just try to answer the following questions based on the content given in the video:

- What are the memory waste problems of KV cache management in previous systems? How can you correlate this waste with the concepts covered in our lectures?
- What does PagedAttention (virtualized KV cache) offer to solve the memory waste problems? How can you correlate this solution with the concepts covered in our lectures?
- After watching the video, do you have the motivation to read the [paper](#) with more technical details and results? Why or why not?
- After watching the video, do you have the motivation to look at the [vLLM code](#)? Why or why not?

There might be no exact answer to the questions, we will evaluate your submission by considering your understanding of the main concepts.

Very Important Note: You need to use **your own** words in your answers. You **should not** directly take the sentences from the video script or your friend's submission. We will check your submission for plagiarism. Make sure that, you rephrase all the sentences.

You are required to submit **at most 1-page pdf** file named as yourstudentnumber_ceng322_V3.pdf.
